

The Newest in the Line of Award-Winning Modems from Boca Research!

56K TIDALWAVE USB EXTERNAL V.90 DATA/FAX MODEM

SURF THE WEB ON A HIGH-SPEED TIDALWAVE!

Communication is evolving as we approach the 21st century—the Internet is now a greater source of information and entertainment, e-mail has become the easiest way to keep in touch, and faxing is now easier and faster when sent directly from your computer. To keep up with this evolution, you need an advanced communication tool, the 56K Tidalwave USB.

NEW FLUID DESIGN!

The sleek design of the 56K Tidalwave USB external V.90 data/fax modem allows for a small desktop footprint. The Tidalwave includes a FREE attached USB connector. Simplified, easy-to-read, green LEDs on the front let you know your on-line status at all times. A built-in speaker gives you instant audible notification of dialing and connection to your ISP.

Included **FREE** is the Boca MegaMedia CD-ROM, with a collection of software for faxing, e-mail, browsing and file transfer.

SERVICE PROVIDERS OFFERS:

This modem incorporates the V.90 standard. The actual transmission speed of information downloaded from your Internet service provider will vary depending upon telephone line conditions and power output from your provider. Due to FCC limitations, speeds in the US are less than 56 Kbps. The FCC limitation is 53 Kbps per individual analog telephone line connection. Upstream transmissions to your provider occur at speeds of up to 33.6 Kbps.
